JAMES VEITCH & SONS, ROYAL EXOTIC NURSERY, KING'S ROAD, CHELSEA, S.W.,

Have much pleasure in directing attention to the following New and Choice Vegetables, which are all of great merit, and can be confidently recommended:—

NEW PEA, Gladiator.

Awarded a First-class Certificate Royal Horticultural Society, July 7, 1882.

A splendid new and distinct main crop Pea; very robust and vigorous, growing about 3 feet in height, exceedingly productive, bearing in pairs an abundance of long, curved, handsome pods, well filled with Peas of excellent quality and delicious flavour. Per quart, 3s. 6d.; per pint, 2s.

NEW BEET, Pragnell's Exhibition.

A remarkably handsome and distinct variety, eminently suitable for exhibition, and one of the best for general purposes.

Per packet, 1s. 6d.

NEW BORECOLE, Read's Hearting.

This hardy, dwarf variety forms a firm compact heart, and s'ands longer than any other kind before running to seed.

Per packet, 1s.

TOMATO, Trentham Early Fillbasket.

The earliest large-fruited variety, smooth in outline, of superior quality and flavour.

Per packet, 1s.

BROCCOLI, Veitch's Self-protecting Autumn

A most valuable Broccoli for autumn and early winter use. Heads beautifully white, firm and compact, thoroughly protected by the foliage. Per packet, 1s.

TURNIP, Veitch's Red Globe.

The finest Turnip for garden purposes; very handsome in shape, and of fine flavour.

Per ounce, 6d.

CABBAGE, Ellam's Early Spring.

A very early spring variety, of dwarf, close, compact habit, forming firm solid hearts of excellent quality.

Per packet, 1s.

NEW MELON, Scarlet Premier.

A superb new and distinct scarlet-fleshed Melon, setting very freely, and producing large, handsome, highly coloured, and beautifully netted fruit. The flesh is very solid, thick, rich, and melting, of exquisite flavour and delicate aroma.

Per packet, 2s. 6d.

BRUSSELS SPROUTS, Veitch's Exhibition.

This grand variety is unequalled for exhibition or for general use. The stems are entirely covered from top to bottom with fine, large sprouts, which are very firm and solid, remarkably tender, delicate in flavour, and remain a long time fit for use.

Per packet, 1s. 6d.

CAULIFLOWER, veitch's Extra Early Forcing.

Of dwarf compact habit, with short stems and small leaves; comes into use earlier than any other variety. Highly recommended for forcing or very early use.

Per packet, 2s. 6d.

CELERY, Major Clarke's Fine Solid Red. The best Red Celery in cultivation for early use. Of medium

The best Red Celery in cultivation for early use. Of medium growth, robust, and compact, forming very solid hearts; very crisp, and of excellent flavour.

Per packet, 1s.

CUCUMBER, Tender and True.

First-class Certificate Royal Horticultural Society, and awarded First Prize at each of the Spring Shows for three seasons. A splendid variety, very symmetrical in shape, growing about 24 inches to 30 inches in length.

Per packet, 1s. 6d.

LETTUCE, Veitch's Superb White Cos.

A magnificent self-folding variety, growing to an immense size, of superior quality, very crisp and fine flavoured. Stands a long time before running to seed.

Per packet, 1s. 6d.

For other varieties of Choice Vegetable and Flower Seeds see SEED CATALOGUE, forwarded gratis and post-free on application.

ROYAL EXOTIC NURSERY, CHELSEA, LONDON, S.W.

THURSDAY NEXT.

FOUR GRAND NEW CATTLEYAS

CATTLEYA LABIATA PERCIVALIANA.
CATTLEYA LABIATA GASKELLIANA.
CATTLEYA WARSCEWICZII SANDERIANA.
CATTLEYA AUREA.

R. J. C. STEVENS has received instructions from Mr. F. SANDER to SELL by AUCTION, at his Great Rooms, 38, King Street, Covent Garden, W.C., on THURSDAY NEXT, February 22, at half-past 12 o'Clock precisely, a fine lot of CATTLEYA LABIATA PERCIVALIANA, collected in flower and splendid varieties; this is one of our very finest introductions, of which we feel duly proud. The first flowers of this grand Cattleya opened in the middle of December last, and there is no doubt that the established plants will flower this year in November and December, and a little later than the old Labiata; it is, however, a grander species, its superb coloured lip and its freer habit making it such. If the time of flowering, its exceeding floriferousness, fine and free habit, and the fact that among C. Percivaliana is never found what may be termed a bad variety (we here mean that the very worst Percivaliana has still beauty in it, it is not ugly or washy), is taken into consideration, we think that we do not say too much in stating that it is one of the finest Orchids we have introduced. Sepals and petals large, and far rounder than in any other Labiata, and often of that magnificent plum colour so rare in Cattleyas; its lip is grand, and it is hardly possible to describe it; many most eulogistic terms, among others that it is "mosaic," have been given it, and by the Editor of the Gardener's Chronicle recalling the lip of Cattleya Dowiana. (See dried flowers.) Also a fine lot of CATTLEYA LABIATA GASKELLIANA, a new Cattleya of great promise and merit; also an extra selected lot of CATTLEYA WARSCEWICZII SANDERIANA, one of the most beautiful Cattleyas introduced, unsurpassed for size and excellence of flower; together with some fine plants of CATTLEYA AUREA. This is a superb type of Cattleya Dowiana, different in its typical form, through having a more confined margin of red than Dowiana in the lip, and more chaste than Dowiana. At the same time will be offered fine forms of CATTLEYA TRIANÆ, CATTLEYA DOWIANA, and other ORCHIDS.

On view morning of Sale, and Catalogues had.

AUCTION ROOMS AND OFFICES, 38, KING STREET, COVENT GARDEN, LONDON, W.C.

1883 { Illustrated Hardy Perennials. } 1883 Hardy Florist Flowers. } 1883 THESE TWO CATALOGUES have just been issued, and may be had Gratis on application.

The former contains an unusually fine selection of Choice Hardy Perennials, also selections of Hardy Orchids. Asters, Ferns, Lilies, Hellebores, Aquatics, Bog Plants, Bamboos, Grasses, &c.

The Florist Flower Catalogue includes the finest varieties of the following families:— Carnations, Pinks, Picotees, Chrysanthemums, Delphiniums, Pæonies, Pansies, Pyrethrums, and many others.

THOMAS S. WARE, Hale Farm Nurseries, Tottenham, London.

SINGLE DAHLIAS. POT and GROUND ROOTS.

JUAREZI (the Cactus), WHITE QUEEN and PARAGON, being three of the most showy varieties in cultivation.

Also many other sorts, a List of which, with descriptions and

THOMAS S. WARE,

Hale Farm Nurseries, Tottenham, London.

prices, on application.

ORANSTON'S NURSERIES.

(ESTABLISHED 1785.)

EXTRA STRONG ROSES

For FORCING and GREENHOUSE CULTURE.

All the leading varieties of Hybrid Perpetuals &c., well-established in 8-inch pots,

30s. per dozen.

CRANSTON'S NURSERY and SEED CO.

(LIMITED),

KING'S ACRE, HEREFORD.

CORYPHA AUSTRALIS SEEDS.

WILLIAM M. CROWE

Has just received a large Consignment of the above most useful Decorative PALM, in excellent condition, and begs to offer them to the Trade at the following remarkably cheap rates:—Per 100 seeds, 3s.; per 1000 seeds, 21s.; per 10,000 seeds, £8 10s.

Sample post-free, also LIST of Small PALMS in Stores, &c.

BOLEYN NURSERY, UPTON, ESSEX.

NEW RASPBERRY, BAUMFORTH'S SEEDLING.

The Best Raspberry in the World.

All my Canes of this valuable new and distinct variety are one year transplanted, and therefore may be expected to produce examples of its splendid Fruit this season.

Since I had the pleasure of introducing it two years ago I have been favoured with many hundred reports from my Customers who have planted it, giving the most convincing testimony of its superiority over all other known varieties, alike for size, productiveness, colour, and quality; copies of which, with any other information, I shall be glad to forward on application.

Price, per dozen Canes, 5s.; per 100, 35s.

Price to the Trade on application.

EDMUND PHILIP DIXON,

THE YORKSHIRE SEED ESTABLISHMENT, HULL.

pungens & Englimanis

THIS is unquestionably the finest variety of Rhubarb ever offered; in mild seasons it is ready to pull in February. The crowns and stalks are produced in such profusion that more than twice the weight can be pulled from this than from any other sort. Its productiveness is so great that Charles Kershaw has often, from roots three or four years old, made in six weeks the LARGE SUM OF ONE SHILLING EACH, or from an Acre containing 4840 Plants, put in 1 yard apart, has made the astounding sum of more than

至240.

The colour is a splendid red, flavour excellent, and it has this qualification over all others, IT NEVER SEEDS. The illustration is taken from a plant lifted out of some hundreds which were planted single crowns in the Autumn of 1880.

Now is the best time to plant. May be had of all the principal Nurserymen and Seedsmen in the United Kingdom.

Price, per strong plant, 5s.; per three plants, 13s. 6d.; per five plants, £1.

PRICE TO THE TRADE ON APPLICATION.

Early orders are requested, as the Stock is limited. Persons with whom I have not had the pleasure of doing business must in all cases accompany their order with remittances.

TESTIMONIALS:

From the Gardeners' Chronicle.—"Report of the Fruit Committee of the Royal Horticultural Society, April 11, 1882.—Mr. Charles Kershaw, of the Slead Syke Nurseries, Brighouse, sent samples of a very good seedling Rhubarb, which the Committee seemed to think well of."

"New Market, Huddersfield.—I have pleasure in stating that during the last three years I have sold a large quantity of Mr. Chas. Kershaw's new Rhubarb; it is by far the handsomest and best that comes into the market, the colour is such a bright red and the leaves are so very small that when bunched it has an exceedingly neat and tidy appearance, it also bears handling well, in fact I can sell no other sort until I have finished it. On referring to my books I find that in 1880, from the middle of March to the first week in May, I had 4000 dozen bunches; when I saw the small piece of ground it was pulled off I was astonished. Last year I had about the same quantity, and this year I have had more, as I began to have it the first week in March.—I am, Sir, yours, &c.

G. H. HOWARTH, Fruit and Potato Salesman."

From Mr. Samuel Peel, Market Gardener, Strawberry Lodge, Elland.—"Some time ago Mr. Charles Kershaw sent me for trial some roots of his new Rhubarb, and as I am an extensive

grower of Rhubarb I have had a good opportunity of testing it, and have found it much superior to all other sorts. It is a heavy cropper, very early, of fine flavour, and the colour is a most beautiful red. With me it has never produced a seed crown. (Signed) S. Peel."

"Belsfield Gardens, Windermere, October 25, 1882.—During the time I was Gardener to Sir Titus Salt, Bart., Crow Nest, Lightcliffe, near Halifax, I had frequent opportunities of seeing Mr. Chas. Kershaw's Seedling Rhubarb. It is a very early sort (when ours was only making its appearance he was pulling), the colour is a good red, and the plant an enormous cropper; on the occasion when paying a visit to the nursery I saw pulled from one root twelve bunches, which Mr. Kershaw told me were then selling for a shilling: and I saw hundreds of other plants equally good. Without doubt this is a valuable acquisition. By sending out this variety Mr. Kershaw will become a benefactor to his country.

(Signed)

JOHN NICOL."

"Brighouse, October, 1882.—For several years, during the season, Mr. Chas. Kershaw has supplied me in quantity daily with his new Rhubarb—there is no sort that I am acquainted with that can equal it in colour or quality. I believe it to be the best Rhubarb grown, I cannot speak more highly of it than it deserves. (Signed) JONATHAN MARSDEN, Fruit Merchant."

Address in full:—CHARLES KERSHAW, The Slead Syke Nurseries, BRIGHOUSE.
